## Accessing BMJ Best Practice

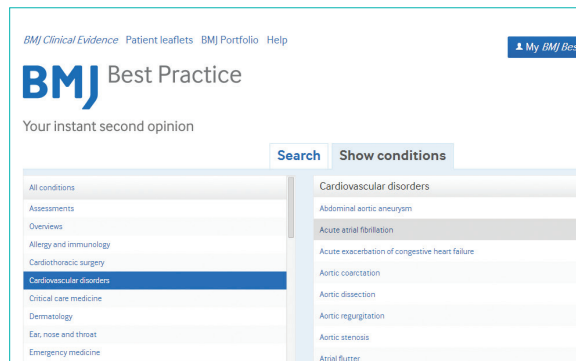

For personal subscriptions, login using your 'My BMJ Best Practice' details. If institutional access has been set up via IP range, visit the site from within your institution to access the content. Registering for a 'My BMJ Best Practice' also allows off-site remote access.

## Search

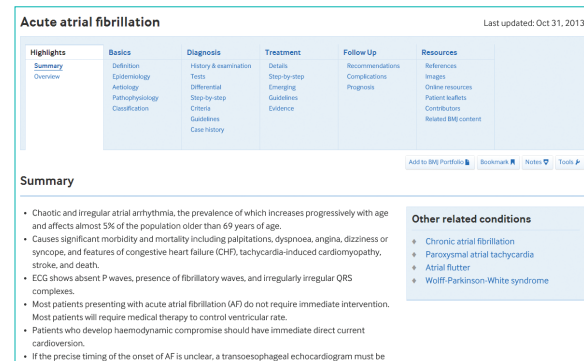

A free-text 'Search BMJ Best Practice' box appears on every page so even when you are within a monograph you can easily navigate to other content. You can type a keyword (such as 'fever', or 'ECG') into the search to find pages that relate to a specific symptom, test, diagnosis or treatment

## Browse

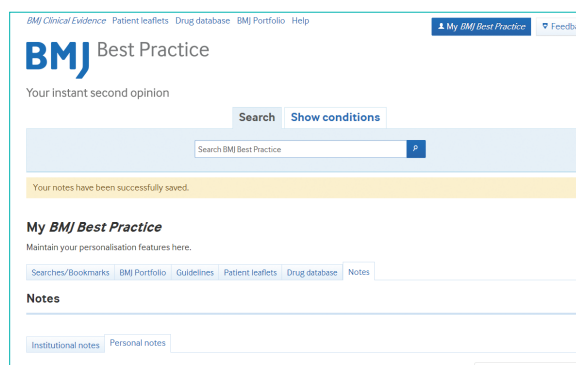

Alternatively, you can browse for a known condition by clicking diagnosing a patient presenting with a specific symptom, sign or laboratory finding, then the 'Assessment of' topics are a useful place to start.

## Structured content

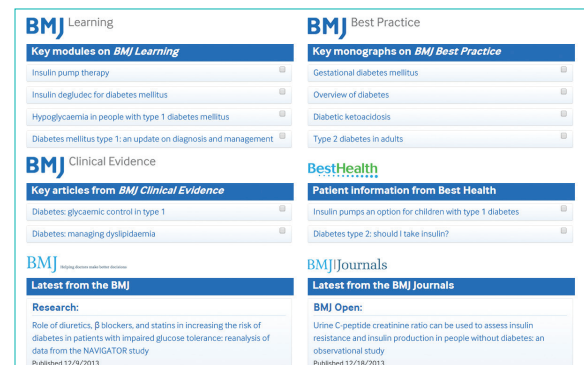

Every topic in BMJ Best Practice is broken down into short sections, structured around the patient consultation. You can easily jump straight to the information that will answer your questions, by using the tab options within the monograph – Highlights, Basics, Prevention, Diagnosis, Treatment, Follow-up, Resources.

## Personalisation

BMJ Best Practice contains additional features which allow you to enhance the content to fit your personal requirements. Register for a 'My BMJ Best Practice' account as part of your institutional subscription, and you can save searches, annotate pages and bookmark topics. It also allows you to share content with others using the 'tools' functionality.

## Related content

BMJ Best Practice is your single destination for treatment and diagnosis information. From within each topic, you can now locate other BMJ related content. To view, click on the 'Related BMJ Content' link listed under the 'resources' column options. It has never been so easy to keep up with developments in your clinical area.
