

Drug and Therapeutics Bulletin

The independent review of medical treatment

Keep up to date with the latest unbiased assessments of drugs and treatments

Keep up to date with the latest unbiased assessments of drugs and treatments

DTB provides rigorous and independent evaluations of, and practical advice on, individual treatments and the overall management of disease for doctors, pharmacists and other healthcare professionals.

You have access to:

- Independent assessments of the pharmaceutical industry, Government and regulatory authorities
- Condensed, succinct summaries focusing on efficacy, safety, convenience and cost of a drug
- Peer reviewed evidence and practical advice on a treatments place in overall management of the disease
- CME/CPD modules consisting of five multiple choice questions related to an accompanying DTB article
- Podcasts on the latest issue of DTB and specific areas of interest or recent withdrawals of drugs.
