

Navigating the BMJ Quality website

Welcome to BMJ Quality! This guide will help you learn more about the features and benefits of the BMJ Quality online platform

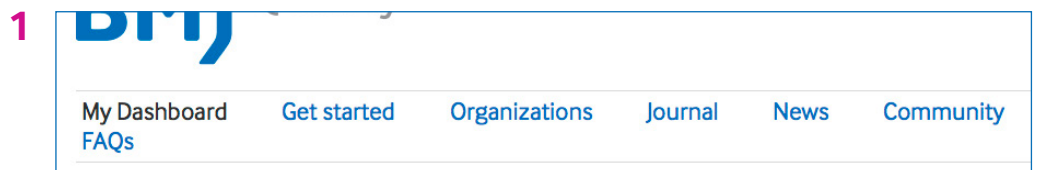

Contents

- Section 1: **Navigation bar**
- Section 2: **Overview of 'My Dashboard'**
- Section 3: **Creating a new project**
- Section 4: **Selecting a mentor and team members**
- Section 5: **Using the message board**
- Section 6: **Completing your project**

Section 1

Navigation bar

The navigation bar can be found at the top of your screen:

The **My Dashboard** tab will take you to your dashboard. This is the page you see when you log in each time. This menu item is personal to you and not available unless you are logged in.

The **Get Started** tab will enable you to see other BMJ quality products available to you. There is also an introductory video and a brochure with more detailed information about BMJ Quality.

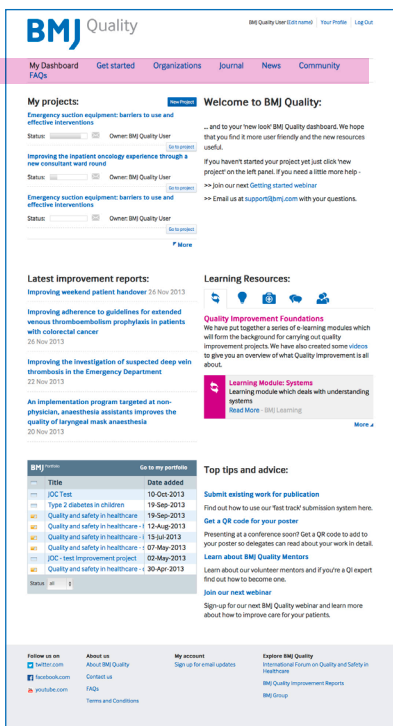

The **Organizations** tab takes you to a page which provides information for organizations who may be interested in purchasing BMJ Quality products for a group.

The **Journal** tab takes you to the BMJ Quality Improvement Reports journal. Here you will see projects that have been carried out using BMJ Quality and have been submitted for peer review and accepted for publication. This is where your project will go, if you submit using the single click process and the report is accepted for publication.

The **News** tab gives you details of all the latest events, webinars, website updates, useful links and blogs.

The **Community** tab takes you to an online global community of Quality Improvement. Here logged in users have the opportunity to communicate with other users around the world.

The **FAQ** tab will help you to find solutions to most of your BMJ Quality related questions.

Section 2

Overview of 'My Dashboard'

'My Dashboard' is your personal homepage.

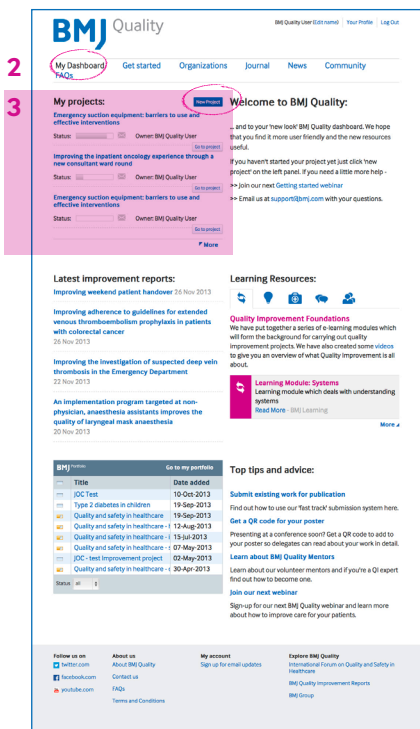

To the left side of the Dashboard you have the **My projects** section. This provides you with the list of projects that you are currently undertaking and those you have completed.

There is a **New Project** button at the centre of the screen. This will create a project workbook. Once a project is created, a list of projects will be created on your dashboard. You can access each project workbook by either clicking on your project title or the 'go to project' button.

Below the project title is the status bar. This reflects the progress you are making through your online workbook. Next to the status bar is the message icon. When a new message is received from your project mentor or team member, it will show up here. You will be able to start a new conversation from within your project.

Next to the message icon is the name of the project owner. This is the name of the person who created the project. This will help to indicate the projects that you have initiated and those that you have been added to.

Section 2

Overview of 'My Dashboard' continued

Also on 'My Dashboard' is **BMJ Portfolio**. You can use this to keep track of the learning that you complete as you work through your BMJ Quality project. When creating a new project, you will be given the option of whether or not you would like to keep a record of the project here.

The screenshot shows the 'My Dashboard' interface with a 'BMJ Quality' header and navigation tabs. A red circle highlights the 'Portfolio' tab. Below, the 'My projects' section lists several projects with status indicators. The 'Latest improvement reports' section features a list of reports with dates. A 'Learning Resources' section is highlighted in pink, showing icons for various resources and a 'Quality Improvement Foundations' module description. At the bottom, there are social media links and account information.

The Learning Resources are listed under five separate tabs and contain BMJ Learning modules, videos and tools:

- 1 Quality Improvement Foundations
- 2 Ideas into Improvement
- 3 Impact on Care
- 4 Teamwork
- 5 Clinical leadership

4

Section 3

Creating a new project

Your projects are managed from 'My Dashboard'. To start a new project you will need to select the 'new project' button.

6

My projects:

Emergency suction equipment: barriers to use and effective interventions

New Project

Welcome to BMJ Quality:

...and to your 'new look' BMJ Quality dashboard. We h

This will open a box and you will need to complete the following fields:

- Project Name
- Workbook type
- Deadline - as agreed with your team/mentor
- Organization - where the project is taking place
- Clinical area - this should match the category of the journal it would be found in if published

Add Project

Name your project

Project Name *

The name should describe the subject area you aim to improve and it should be obvious to the reader what it is about. You may wish to edit this again once you have completed your project as it will form the final title published in BMJ Quality Improvement Report. If you choose to submit.

Workbook *

Please choose the workbook that will form the template for your project.

Deadline *

If you are working as a team, you should agree on the deadline with your colleagues and, if applicable, your mentor. The deadline is not an absolute one and you can change it at any time, but it will give you a helpful target. We suggest an initial deadline no more than 12 weeks in the future. To complete one or two cycles of a simple quality improvement project may take between 8-12 weeks; multiple cycles of a more complex project can take 6 to 9 months or more to fully test and sustainably embed change and improvement.

Your work

Organization *

Clinical area *

If you choose submit your project for publication it will be published in this clinical category within the journal. For an improvement which involves multiple clinical areas please select the most important.

Save

These details can be edited later on if they change.

Once you have entered all of the relevant information, click on the 'save' button. You will now have the opportunity to add your project to BMJ Portfolio.

The screenshot shows the BMJ Quality user interface. At the top, there's a navigation bar with 'My Dashboard', 'Get started', 'Organizations', 'Journal', 'News', and 'Community'. Below this, the 'My projects' section is visible, featuring a 'New Project' button circled in red. The main content area displays a list of projects, including 'Emergency suction equipment: barriers to use and effective interventions' and 'Improving the inpatient oncology experience through a new consultant ward round'. There are also sections for 'Latest improvement reports', 'Learning Resources', and 'Top tips and advice'.

6

Section 4

Selecting a mentor and team members

To add a mentor and/or team members to a specific project, select your project from your dashboard by clicking on the link or the corresponding **go to project** button.

7

The screenshot shows a 'My projects' dashboard. At the top right, there is a 'New Project' button and a 'Welcome' message. Below this, three project entries are listed. Each entry includes a title, a progress bar, an email icon, and the text 'Owner: BMJ Quality User'. A pink circle highlights the 'Go to project' button for the first project. The first project title is 'Emergency suction equipment: barriers to use and effective interventions'. The second project title is 'Improving the inpatient oncology experience through a new consultant ward round'. The third project title is 'Emergency suction equipment: barriers to use and effective interventions'. At the bottom right of the project list, there is a 'More' button with a downward arrow.

Once your project is open, click on the **No mentor selected** or **No members selected** link in the project workbook.

This will open up a page that allows you add a mentor and team members as well as to edit elements of your project details.

To add a member they must also be a registered user. They are searchable by the email address that they used to register. Those added to your project will be able to work collaboratively with you and will also be listed as authors.

If you wish to add a mentor you have two options:

- i To add a mentor of your choice
- ii Add a volunteer mentor

For option i type the email address of your chosen mentor into the relevant box and press 'Save Changes'. An email will then be automatically sent your mentor. If already registered they will be connected with your project the next time you have both logged in. For mentors not registered they will be sent an invitation by email which will explain how to register.

For option ii if you wish to have a volunteer mentor for your project, you can choose from a list of volunteer mentors. Please note that whilst the volunteer mentors can provide input from a quality improvement perspective, they may not know your local systems well enough to provide advice from a clinical perspective. To select a volunteer mentor, click on the box and select from the list of names. Once you have selected the name, click the save changes button and your mentor will be added.

The screenshot shows the BMJ Quality dashboard. At the top, there is a navigation bar with 'My Dashboard', 'Get started', 'Organizations', 'Journal', 'News', and 'Community'. Below this, there is a 'My projects' section. A pink box highlights the 'Go to project' button for the first project. The first project title is 'Emergency suction equipment: barriers to use and effective interventions'. The second project title is 'Improving the inpatient oncology experience through a new consultant ward round'. The third project title is 'Emergency suction equipment: barriers to use and effective interventions'. At the bottom of the dashboard, there is a 'Latest improvement reports' section and a 'Learning Resources' section.

Section 5

Using the message board

This feature allows you to communicate with your team members and mentor.

You will find the Message Board at the bottom of each page of the project workbook.

8

The screenshot shows the 'My projects' section of the BMJ Quality dashboard. It lists three projects, each with a status bar, an owner (BMJ Quality User), and a 'Go to project' button. The second project, 'Improving the inpatient oncology experience through a new consultant ward round', is highlighted with a pink circle. Below the projects is the 'Message Centre' section, which includes a 'View Messages' link and a 'Start New Topic' button, also highlighted with a pink circle.

To send a message to your team members and mentor, click on **start new topic**. This will open up a message box for you to type your message and upload any attachments you may want to share. Once you have finished click send. You can view any new messages received by going to the project workbook and clicking on 'new' next to the message icon. You can view your message history by clicking 'View' next to the message field.

The full screenshot shows the BMJ Quality website dashboard. The 'My projects' section is highlighted with a pink box and the number '8'. The dashboard includes sections for 'Latest improvement reports', 'Learning Resources', and 'Top tips and advice:'. The 'Top tips and advice' section includes a table of recent publications and a list of upcoming events.

BMJ topic	Date added
JOC Test	10-Oct-2013
Type 2 diabetes in children	19-Sep-2013
Quality and safety in healthcare	19-Sep-2013
Quality and safety in healthcare	13-Aug-2013
Quality and safety in healthcare	13-Jul-2013
Quality and safety in healthcare	01-May-2013
JOC - test improvement project	02-May-2013
Quality and safety in healthcare	30-Apr-2013

Section 6

Completing your project

Once you have completed all the text boxes for each section you can click on the preview button at the bottom of the screen. This will allow you to view your work on a single page in a standard journal article format. You can then choose whether to submit your report to be considered for publication in BMJ Quality Improvement Reports (qir.bmj.com). This is an online-only, open access journal which aims to be the largest searchable repository of global quality improvement reports.

Please note that once a project is submitted you will no longer be able to make further changes unless invited to do so by your reviewer. You can expect to hear from the peer review team within 28 days of submission.

The screenshot shows the BMJ Quality website dashboard. At the top, there are navigation links: My Dashboard, Get started, Organizations, Journal, News, and Community. Below this, there are sections for 'My projects', 'Welcome to BMJ Quality', 'Latest improvement reports', 'Learning Resources', and 'Top tips and advice:'. The 'My projects' section lists several projects with their status and dates. The 'Welcome to BMJ Quality' section provides a brief overview and links to resources. The 'Latest improvement reports' section lists recent reports with their titles and dates. The 'Learning Resources' section includes links to Quality Improvement Foundations and Learning Modules. The 'Top tips and advice' section provides guidance on submitting work for publication.
