

# Have confidence in your clinical decisions

BMJ Best Practice gives medical professionals the best available information for any clinical situation.

#### Save time and reduce cost

Consult expert opinion to increase accuracy of diagnosis and effective treatment.

#### Innovative navigation

Consistent structure to match your clinical work-flow, enabling quick access to relevant and practical information.

#### Anytime, anywhere

Use BMJ Best Practice anytime, anywhere - even offline, with the free mobile app.

#### Guidelines

Promote clinical excellence using UK treatment guidelines from the BNF, NICE and SIGN.

#### Related content

Complement knowledge on a topic through accessing high quality content from The BMJ, BMJ Learning and BMJ Journals.

#### Track your professional development

Automatic tracking enables you to print certificates and demonstrate continuous medical education (CME).

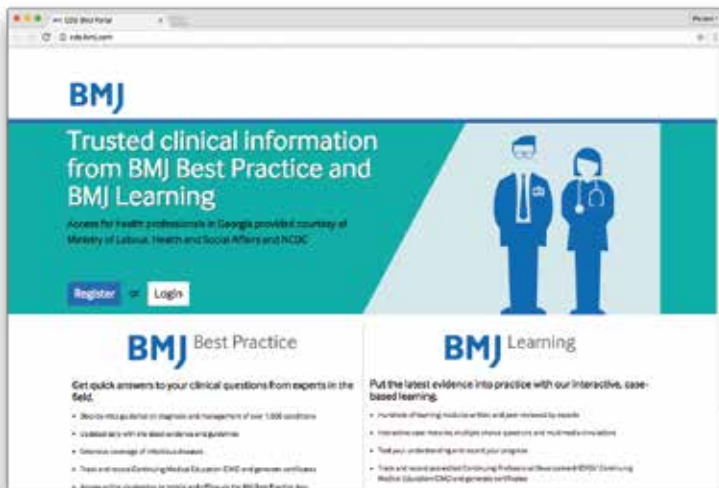

#### Evidence based

Evidence based content underpins BMJ Best Practice. Reference notations and evidence scores are clearly marked to keep you up to date with the latest research.

# How to access

Getting started is easy, just follow the steps below.

1. To register go to **[cbs.bmj.com](https://cbs.bmj.com)** and click 'Register', or press 'Login' if you have previously registered and enter your login details.
2. If you have selected 'Register' you will be taken to a page to input your email address. Following this, click 'Register'.
3. Once you have filled out your email address, you will be taken to a short 'registration form'. Please fill out the form and in the last box, input the access code that was sent to you in your access email. Click 'Register'.
4. Once you have either registered or logged in you will be taken to your BMJ Hub. Click on 'Clinical decision support' to go to the BMJ Best Practice website.

If you have any problems registering or logging in, please contact [support@bmj.com](mailto:support@bmj.com) for further assistance.
