

BMJ Best Practice

Getting started guide

BMJ Best Practice is a clinical decision support tool, uniquely structured around the patient consultation, with advice on symptom evaluation, tests to order and treatment approach.

It is ranked one of the best clinical decision support tools for health professionals worldwide.*

Use BMJ Best Practice to:

- Search thousands of clinical topics and over 6,000 clinical guidelines
- Find answers fast using our layout that mirrors the patient consultation
- Access anywhere, with online and offline access via the BMJ Best Practice app
- Get step-by-step guidance via our unique treatment algorithm tables
- Check prescription guidance using linked drug databases and over 250 medical calculators
- Stay current with Important Updates highlighted within each topic
- Ensure your ongoing professional development, with automatic CME/CPD tracking.

BMJ Best Practice

Follow these two easy steps to get started

STEP 1

You have access to BMJ Best Practice via Access Code.

1. Go to bestpractice.bmj.com
2. Click 'Log in' and select 'Access Code'.
3. Complete your registration and enter your Access Code when requested.
You now have a personal account.

 Your access code is:

A personal account will enable you to:

- Download the BMJ Best Practice app
- Track your CME/CPD activity and download certificates
- Access BMJ Best Practice outside of your institution, anywhere and at any time.

If you do not know your institution's access code, please contact your library.

STEP 2

Download the app

First, make sure you have redeemed your access code by completing step 1.

Search for 'BMJ Best Practice' on the App Store or Google Play*

Select the app and start the download

Enter your personal account login details to complete the download.

* Available for Android 4.2 (API version 17+), iOS 7 and above
