

# BMJ Best Practice

## Getting started guide

Follow these **three easy steps** to get started.

BMJ Best Practice is available to all NHS staff in Wales.

### STEP 1

#### Access BMJ Best Practice via your institution

1. First go to [bestpractice.bmj.com](https://bestpractice.bmj.com)
2. Click 'Log in' and select the **Access through your institution** option
3. Search for your organisation and sign in with your username and password. You will then be taken back to BMJ Best Practice.

If you do not know your OpenAthens username and password, contact your local library service.

### STEP 2

#### Set up a personal account

Setting up a personal account gives you access to extra features. You will need to create a personal account on your first visit. You can then use these details to access BMJ Best Practice directly.

#### Your personal account will enable you to:

- Download the BMJ Best Practice app
- Track your CME/CPD activity and download certificates
- Log in to BMJ Best Practice outside of your institution, anywhere and at any time.

### STEP 3

#### Download the app

First, make sure you complete step 2 and set up your personal account.

1. Search for 'BMJ Best Practice' on the App Store or Google Play
2. Select the app and start the download
3. Enter your personal account login details to complete the download.

Once logged into the app, you will remain logged in, so you can quickly access clinical information wherever and whenever you need it.
