## Key Features

### Personalised Support

Revising for an exam is a unique learning journey and a one fit solution is sub optimal. Personalised Support aims to provide you with the most appropriate information, just for you at the right time in your revision journey. The system learns about you as you answer questions and provides you with specific questions and flashcards based on your weaknesses to support you on your learning journey. It's the ultimate revision experience.

### Core Questions

Maximise your revision time. Core Questions instantly delivers you the most important questions, ranked by our clinical tutors and your peers. Our team includes past examiners, field specialists and clinical authors with unrivalled experience in exam formats and the current expectations of what you will be tested on and why.

### Daily Questions

Keep yourself motivated. Set a time that suits you, we will send you a personalised revision question every day. Receive a question related to what you revised most recently keeping your revision efforts focussed and continuous.

### Key Learning Points

Every question tests a key learning point. Each revision session you complete ends with a memorable summary of key points you've covered. Review the questions again to reinforce your knowledge. Understanding key points first is the most effective way to gain a complete knowledge of any topic area.

### Mock Tests

Prepare yourself with relevant mock tests. Simulate exam day with the correct format, time pressures, number of questions and topic spread. We will then generate an accurate and detailed breakdown of your results, letting you know what you need to focus on.

### Track your progress

We provide intelligent and responsive feedback for you to keep track of how your revision is going. Detailed performance graphs show how you're currently performing and benchmark you against your peers.
