

Getting started with BMJ OnExamination

Start revising today, our bespoke platform is designed to help candidates pass their medical exams first time.

Time Efficient Revision

We focus on helping you to maximise your revision time. Our unique features ensure no time is wasted when you are preparing for an exam.

Quality Questions

You will have access to high quality questions written by specialty experts. You can personalise your revision by choosing your own revision filters and they are saved for when you come to login next time.

Personalised Feedback and Support

Tracking progress and logging your learning is vital to an effective revision strategy. We identify your weak areas and provide a prioritised set of revision that is personal to you that helps you improve your knowledge.

Revise offline

You never need to worry about not having revision content to hand as our apps enable you to revise with hundreds of questions in your pocket at any one time even without an internet connection.

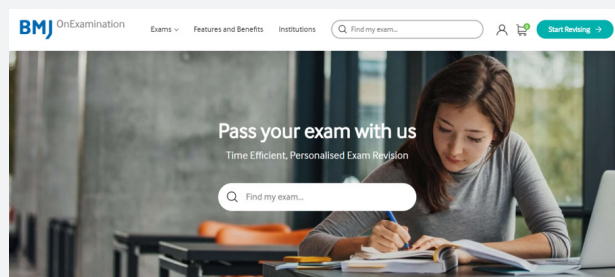

“

The BMJ onexamination resource provides very comprehensive preparation. I felt that the questions online had a good mixture of those that were the same and more difficult than the actual exam. The topic coverage was sufficient and the explanation of what justifies the correct answer was the most helpful part of the resource. Most of the learning comes from well written answer explanations.

— Dr Sunkersing

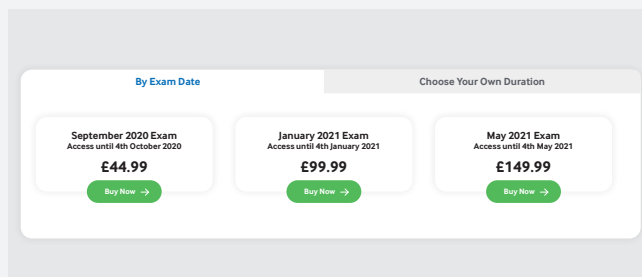

”

Voucher code redemption process

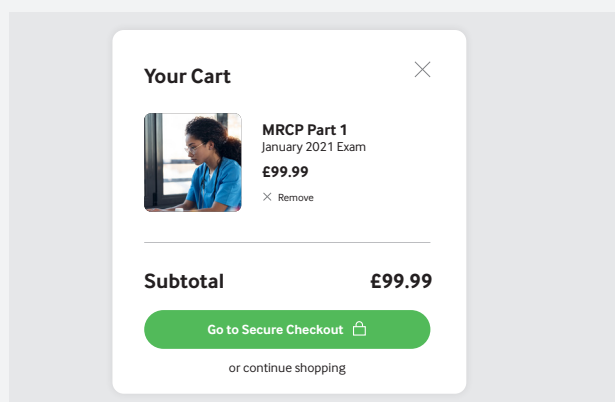

Step 1

Head to www.onexamination.com and find your exam resource.

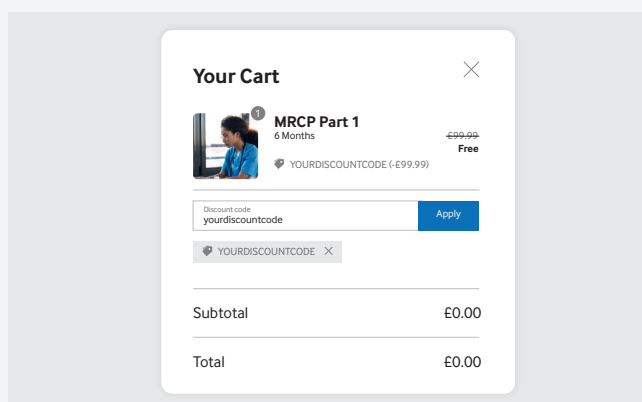

Step 2

Select the subscription relevant to your institution and click 'Buy Now' - if your subscription is not shown, select 'Choose Your Own Duration' for a full list of available lengths.

Step 3

You'll be shown the contents of your cart, click 'Go to Secure Checkout' if the product is correct.

Step 4

At the checkout page, enter your institutional voucher code and click 'apply'. This will take the total cost of your order down to zero.

Revise Anywhere / App Features

You never need to worry about not having revision content to hand as our apps enable you to revise with hundreds of questions in your pocket at any one time even without an internet connection.

Revise on your commute, in between patients or whenever suits you best with our App. Practice questions offline, your scores are synced back to your account when you're next online. Revising for an exam is a unique learning journey and a one fit solution is sub optimal. Personalised Support aims to provide you with the most appropriate information, just for you at the right time in your revision journey. The system learns about you as you answer questions and provides you with specific questions and flashcards based on your weaknesses to support you on your learning journey. It's the ultimate revision experience.

Great feedback on questions with direct communication with the question setters (who can discuss issues with you!)

— Dr Justin Kua

Key Features

Personalised Support

Revising for an exam is a unique learning journey and a one fit solution is sub optimal. Personalised Support aims to provide you with the most appropriate information, just for you at the right time in your revision journey. The system learns about you as you answer questions.

Core Questions

Maximise your revision time. Core Questions instantly delivers you the most important questions, ranked by our clinical tutors and your peers. Our team includes past examiners, field specialists and clinical authors with unrivalled experience in exam formats and the current expectations of what you will be tested on and why.

Daily Questions

Keep yourself motivated. Set a time that suits you, we will send you a personalised revision question every day. Receive a question related to what you revised most recently keeping your revision efforts focussed and continuous.

Key Learning Points

Every question tests a key learning point. Each revision session you complete ends with a memorable summary of key points you've covered. Review the questions again to reinforce your knowledge. Understanding key points first is the most effective way to gain a complete knowledge of any topic area.

Mock Tests

Prepare yourself with relevant mock tests. Simulate exam day with the correct format, time pressures, number of questions and topic spread. We will then generate an accurate and detailed breakdown of your results, letting you know what you need to focus on.

Track your progress

We provide intelligent and responsive feedback for you to keep track of how your revision is going. Detailed performance graphs show how you're currently performing and benchmark you against your peers.
