INFLUENCE

Sadiq Khan, Mayor of London, mentions The BMJ in a [response to question about effectiveness of face masks](#) 24 Mar 2022: *The response to MQ 2022/0792 refers to the **BMJ** article, which was published on 9 April 2020, and raised the question of applying a precautionary principle where people were encouraged to wear face masks on the grounds that – as a collective – we had little to lose and potentially something to gain from the measure.*
