

BMJ Best Practice

You have access to BMJ Best Practice!

Your expert guide to diagnosis, prognosis, treatment and prevention, anytime, anywhere

The image shows three devices displaying the BMJ Best Practice interface. A laptop in the background shows the main website with a search bar and navigation menu. A tablet in the foreground shows a search results page for 'Introducing Comorbidities on BMJ Best Practice'. A smartphone in the foreground shows the mobile app interface. A callout box with a pink border and a circular icon containing a plus sign and a 'C' highlights the 'Comorbidities Manager' feature. The callout text reads: 'Includes the Comorbidities Manager Supporting you to treat the whole patient by providing guidance on the treatment of acute conditions alongside their pre-existing comorbidities'. Below the callout is a QR code and a pink button that says 'Scan to get started'.
